### WITH TIGHT SQUEEZE

Appropriation Bills May Be Pushed Through.

SPECTER OF EXTRA SESSION.

Dread of Being Convened During the Summer Months Is Said to Be the Potent Influence to Complete the Work.

Washington, Feb. 27.-The house will devote practically all of the closing week of the session to the appropriation bill and conference reports,

The prospects are that every minute of the time will be required to get them through before noon on March 4. An order has been made to meet at 11 o'clock each day, but in addition to this night sessions will be held, and it would surprise no one if one or more all-night sessions should be necessary. Everything else except the appropriation bills and the army reorganization bill will go by the boards in the final crush.

A few minor bills may go through by unanimous consent, but there is no longer any time for the consideration of important general measures. The bill for the government of Hawaii has been abandoned, and although the friends of the public building bills favorably acted upon in committee of the whole 10 days ago still cherish a lingering hope that time will be given for their consideration in the house, the chance is so insignificant that it is barely worth mentioning.

Hundreds of bills will die on the calendar. Although the fear of an extra session practically disappeared with the agreement in the senate upon the army reorganization bill, it will require the most arduous labor to get through the appropriation bills and conference reports before the curtain

falls next Saturday. The actual physical work of engrossing eight or 10 big appropriation bills during the last 40 hours will necessitate a large temporary addition to the engrossing force. The engrossment of bills is done at the government printing office when no special exigency exists, but by a special resolution passed Friday permission to engross by hand during the remainder of the session was given.

The state of the appropriation bills is such that the situation might well cause alarm were it not for the almost universal desire on both sides of the house to obviate the necessity of an extra session of congress: Only three of the 14 supply bills have gone to the president-the pension, military academy and consular and diplomatic. Six have passed both houses.

Five of these, the legislative, executive and judicial, the postoffice, the agricultural, District of Columbia and Indian, are in conference, where the representatives of the two houses are seeking to adjust the differences. The other, the river and harbor, has been referred to the river and harbor committee of the house. The sundry civil has passed the house and is under consideration in the senate. The naval bill has passed the house, but has not yet been reported to the senate.

The army bill is being considered in the house, and two of the bills, the fortifications and general deficiency, are yet to be acted upon by the house. Most of the bills in conference have

problems which will be more or less difficult to solve, but none of these differences, vexatious and serious as they may be, promise a deadlock which might result in their failure, with the single exception of the river and harbor bill, and its loss would not neces sitate an extra session. The fight over the Nicaragua canal amendment which the senate placed upon this bill as a rider will be bitter and to the death.

Outlook In Senate. Washington, Feb. 27.—The week will

open with the compromise army bill still before the senate, but it is impossible to say how long it may continue to demand the attention of that body. The best opinion is to the effect that a vote will be secured Monday, but this depends largely upon the temper of Mr. Gorman and his friends, who insist upon the amendment of the army bill so as to further curtail the size of the army in 1901. It is not, however, believed that they will press their opposition to the point of entering into an extended controversy over the merits of the measure, and the friends of the bill count confidently on a vote before adjournment Monday. Mr. Gorman disclaims any intention to force delay, but says he will press his amendment as long as there is any chance of success. If the debate should be continued to any considerable length the action would be generally accepted as indicating a purpose to force an extra session, as all admit that with as many appropriation bills as are pending, it is impracticable to

give very much more time to the army bill and still pass the supply bills before March 4.

#### NO COLLISION

"I enlist d in the Utah light battery at the outbreak of the war," said Senor Montalvo. "I became General Otis' interpreter last September, and remained in that position until I set out for this country on Jan. 13. Very few persons ever saw Aguinaldo. Hitch In the Pottery Trust.

East Liverpool, O., Feb. 27 .- Western earthenware manufacturers have almost abandoned faith in the pottery trust project. The subscriptions of stock in the American Potteries company were announced to close in New York on Tuesday last. Since then not a word has been received from the New York people who undertook to float the stock. It is stated that of the \$27,000,000 stock only \$6,000,000 has been taken. The projectors announced last week that if the necessary stack to float the trust was not taken this week they would drop the deal.

Washington, Feb. 27.—The funeral ship Roumania, which is engaged in the sacred mission of bringing home the remains of the brave soldiers who lost their lives in Porto Rico and Cuba, has completed its work so far as Porto Rico is concerned. The number of American dead on that island was comparatively small, and their disinterment and removal to the transport occupied only about a week's time. The Roumania has left Ponce for Santiago, where the principal work of the expedition will be done.

Both sides are ready and are anxious to have the trial proceed without further delay. It is regarded as extremely unlikely that the long exciting deadlock at Harrisburg will be broken in the meantime, and it is conceded that the outcome of the trial will directly influence the question of the senatorial concession.

Oxygen, Which Is Administered Only In Extreme Cases, Has Been Given to the Siek Man by His Physicians.

New York, Feb. 27.-Mr. Kipling's condition is serious. Dr. Janeway arrived at the Hotel Grenoble at 3:30 p. m. and as he was not expected until later in the afternoon, it looked as if there had been a sudden change for the worse and that the physician had been called. He remained in the hoter until 4:15 and then left, returning in half an hour.

Almost at the same time an oxygen tank was brought to the hotel and taken up to the Kipling apartments. That the oxygen was to be administered was admitted by Dr. Janeway. This is heroic treatment and is resorted to only in extreme cases. Both Dr. Janeway and Dr. Dunham were with Mr. Kipling alternately through the

As to the Purchase of Certain of the Turnpikes.

Dr. John A. Reed Replies to "Taxpayer's" Inquiry For Information on the Question.

Editor Bulletin: Taxpayer in your issue of February 22nd propounds the following question to several gentlemen: "What agreement was made prior to the order of election as to the free turnpike law and the issuing of bonds between the free turnpike advocates and pike owners in regard to the prices of roads?"

There was a mutual understanding, brought about in the following manner: Mr. L. W. Robertson asked me to bring some friends who held similar views to myself on the road question and confer with a committee of Magistrates and representatives of the turnpike companies to see if we could not agree upon a compromise measure we all could support, and settle the road controversy, and I accepted the invitation when I was assured it would be agreeable and desired by all parties. We met at the appointed hour and place and the results of that conference was an agreed price of sixty thousand dollars for all the roads, the terms of which were embodied in the order of election, which we all pledged ourselves to support. We understood it was not a legal contract as the county was in no condition to be bound, hence it was not reduced to writing, but we had assurances it would be carried out, and for this reason the middle of a bad fix. TWO IMPORTANT DECISIONS.

Court of Appeals Holds That the Livery Stable and Vehicle License is Constitutional—Changing Salaries.

The Court of Appeals Saturday decided a license tax question of much importance.

The Lexington Council passed an ordinance fixing the annual license of livery stables at \$10, and, in addition, requiring each proprietor to pay for a hack or twohorse vehicle, used for hire in said stables, \$10 per year and \$5 per year for buggies and one horse vehicles, and further requiring that a license tag, costing 25 cents, shall be used to mark each licensed vehicle.

The stable owners claimed this was charging a double or triple license, and was unconstitutional, but the Court of Appeals, in an opinion by Judge Paynter, says in effect that all the fees paid are simply one license, the amount of which is to be ascertained by multiplying the number of two-horse vehicles by ten and the one-horse vehicles by five, and thus prevents the smaller livery stables from paying as much license tax as one owning double its number of vehicles.

In another case from Lexington the Court decided that as a policeman has no fixed term of office, and can be removed or appointed at any time, an ordinance changing his salary while he is in office is valid and not contrary to Section 161 of the Constitution. The policemen waited a year after their salaries had been reduced, and then sued the city to recover the difference between the old and new salaries for a year, and the Court of Appeals decides they can not maintain such an action.

A Relative of Dr. Martin, of Danville, in Charge of It.

[C. B. H. Martin in Danville Advocate.] The following extract from a letter just received, gives authentic information about the new educational movement in China. As it will interest many of your readers, I take pleasure in furnishing it:

As to my work here, everything looks promising. We opened on the 31st ult., with 380 students, most of high grade in Chinese scholarship. The anti-foreign reaction is losing force. The high officials nearly all favor educational reform, at least in words.

Yesterday the High Commissioner, one of the six Chief Grandees, came to wish me a happy new year, and, by way of making me happier, informed me that a pretty house in a large garden had just been finished for me. My Chinese friends do everything to make my sojourn agree-W. A. P. MARTIN.

# DISSOLUTION

Still continues. The question that has been asked us so often in the past few days is, "Are you really going out of business, or are you just doing like so many others-trying to reduce your stock at this the dullest season of the year?" Those who have been in and learned the prices that we are making on our fine goods have no doubts. You who have been in, and who do not avail yourselves of the benefits of this, the greatest sacrifice sale ever made in this city, will be the losers.

~~~~~~~ We state most positively that Lee & Ballenger are going out of business, and are selling their entire stock

of Men's, Boys' and Children's Tailor-made Clothing and Men's Furnishings of every kind, Hatsand Caps

Our line of FINE STIFF HATS we believe to be one of the best stocks in the State. All of these goods will be offered and sold at less than half their real value. This sale will continue until the whole stock is sold out and the business of the firm settled up. It will pay you to see these goods for present or future use. You will surely never again get them so cheap. If we were going to continue in business we would not think of selling these goods at the prices they are going for.

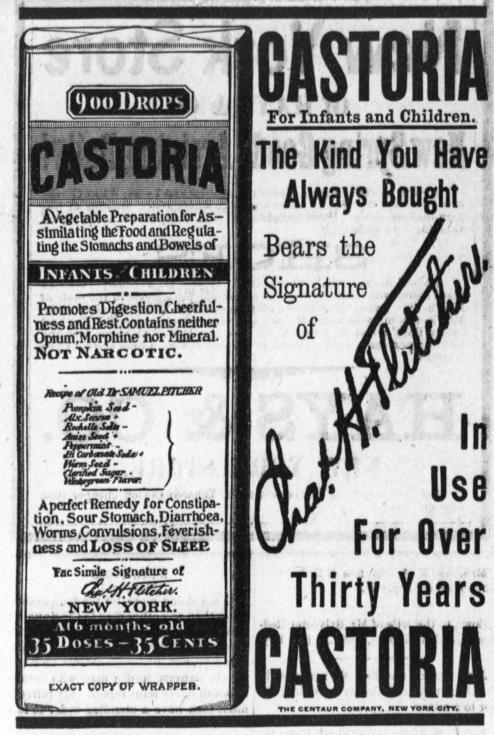

WE ASK YOU TO COME IN AND SEE THE DIFFERENCE BETWEEN A GENUINE CLOS-ING-OUT-TO-QUIT-BUSINESS SALE AND THE FAKES SO FREQUENTLY ADVERTISED!

In twenty years in business in this city we have never advertised anything that we did not do. We stand upon our record. This sale is the real thing-closing out dissolution to retire from business at prices never before equaled and perhaps never will be again. You can't afford to miss it. Respectfully,

May their path be ever strewn with flowers is the wish of their many friends. "Two souls with but a single thought two hearts that beat as one." The bride was beautifully gowned in blue, while the groom wore the conventional black.

#### Can't Grow Rich by Borrowing. Mason, Tex., News,

The treasury of the U.S. is overflowing with borrowed money. Cleveland borrowed \$262,000,000; McKinley borrowed \$200,000,000;--\$462,000,000 borrowed within six years. The Republican press point to the large treasury balance as an evidence of prosperity. If a nation can borrow itself rich why cannot an individual do the same?

Discovered by a Woman. Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she with-stood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at J. J. Wood & Son's drug store. Regular size 50c. and \$1. Every bottle guaranteed.
